Quiz Rewrite Instructions

Rewritten answers can earn up to half of the points missed on each question. For example, imagine that a question was worth 8 points and the answer received 4 points. Four points were missed on the question, so the rewritten answer could earn up to 2 points (half of the points that were missed).

All rewritten answers must be typed and stapled to the front of your original quiz.

Your name should appear in the top right hand corner of every page of your rewrite.

Each rewritten question should list the following:

- The original question, as it appeared on the exam.
- Rewrite your answer to the essay question so that it is correct. *It is not adequate to indicate only what you would add to the question, you must rewrite it so as if you were answering it on the test, so that the result is a complete answer to the question.*
- Your rewritten answer will be graded, just as it would be on the exam. I will then subtract the actual score that you received on the test and you will be given ½ of the additional points earned.
